Objectives

At the end of the project, the students are expected to:

- Write the specifications of an application based on a given mockup.
- Create and assign tasks in a Trello Board based on the specifications.
- Display and showcase the application specifications in their respective portfolio and resume
- Identify unnecessary features as part of a requirement gathering process

ZUITT

Visual Mockup for an Event Booking System

ZUITT

Problem Statement

- You are about to engage a client who wishes to create a software product.
- Unfortunately, the client is unable to articulate their thoughts beyond screenshots and pegs from similar existing products
- Your job is to clarify the business requirements and product a set of deliverables leading to a mockup.

Visual Mockup for an Event Booking System

Problem Statement

- The business owner wants to develop an Event Booking System for concerts and special events. In addition to standard event booking features, the owner wants the platform to stand out by rethinking how exclusive VIP event packages are offered, particularly those that allow customers to meet celebrities.
- The goal is to create a better customer experience, increase the perceived value of VIP packages, and offer something more competitive than existing solutions.

Before we get started

Practically, software product clients are non-technical and thus describe their needs in an obscure way. This is the expectation.

The side project will try to emulate that same situation, while providing templates for documents to serve as your foundation.

ZUITT

What Happens Next?

In the next few slides, your instructor will **play the role of the business owner** presenting a business idea.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

What Happens Next?

During the presentation, the business owner will:

- **Explain the vision** and goals for the proposed system.
- **Show existing applications** that inspired the idea.
- **Share what they like** about each reference application.
- **Describe the problem** they want the system to solve.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

What Happens Next?

As the development team, your responsibility is to:

- Listen carefully to the client's statements.
- Identify the implied business and system requirements.
- Think about how the idea can be improved rather than simply copied.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

What Happens Next?

Remember:

- Clients usually describe what they want to achieve, not how the system should be built.
- It is the development team's responsibility to analyze the discussion, ask relevant questions, and translate the client's ideas into clear system requirements.

Reference Application #1 – Homepage

Business Owner:

"I really like how **the homepage immediately highlights upcoming events and featured artists.**

When customers visit my website, I want them to quickly see what's happening and discover events they might be interested in."

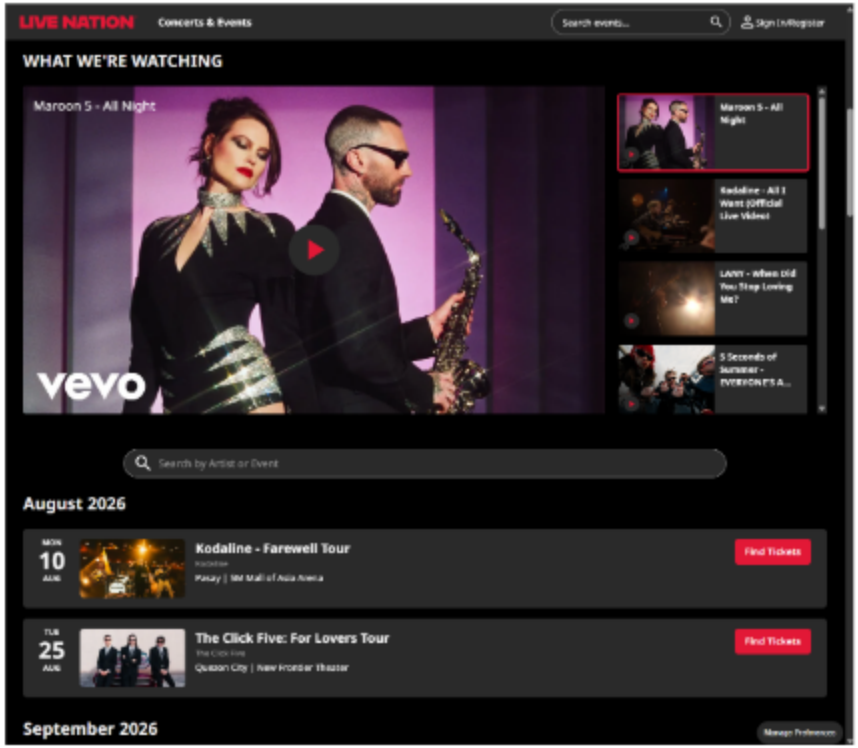

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #2 – Event Listings

Business Owner:

"I also like how this website organizes its events.

Everything is easy to browse, and customers don't have to spend too much time looking for what they want."

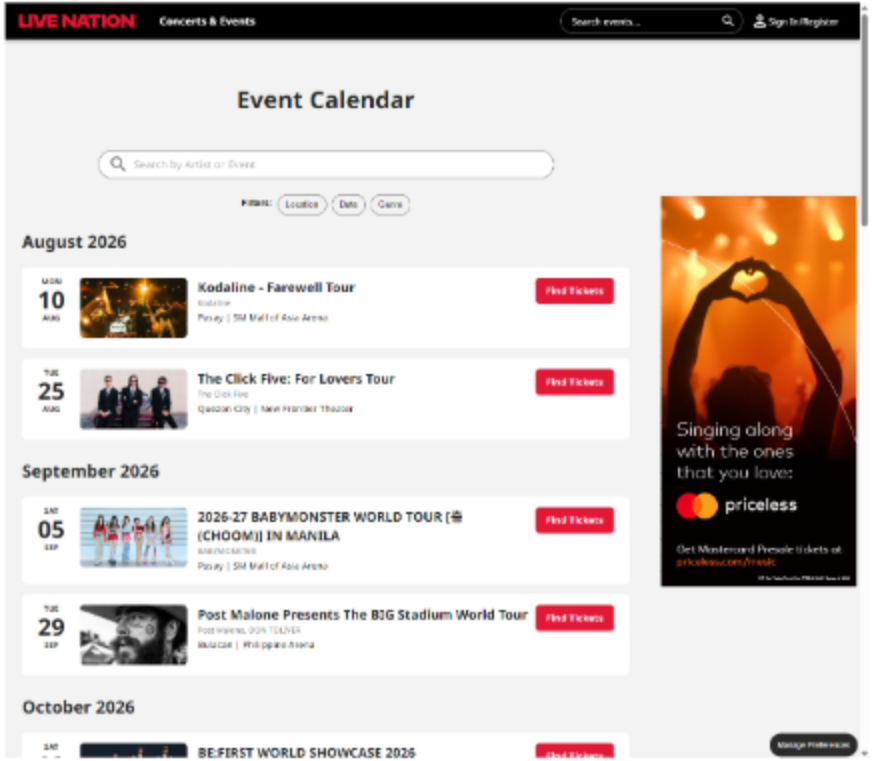

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #3 – Event Calendar

Business Owner:

"Customers should be able to **find events based on what they're looking for** without scrolling through everything."

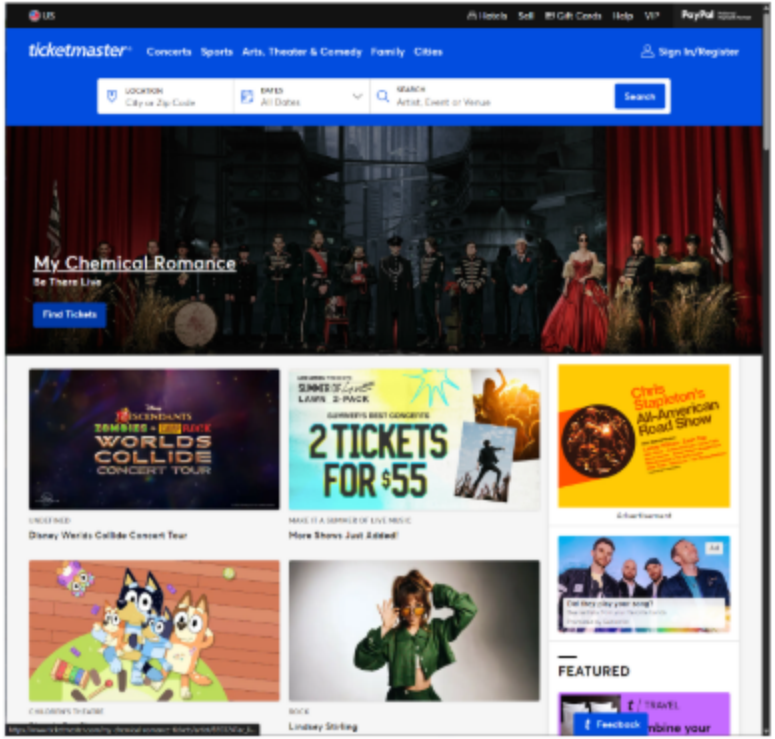

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #4 – Featured Events

Business Owner:

"I also noticed that this **other app's** homepage does a great job **promoting featured events.**"

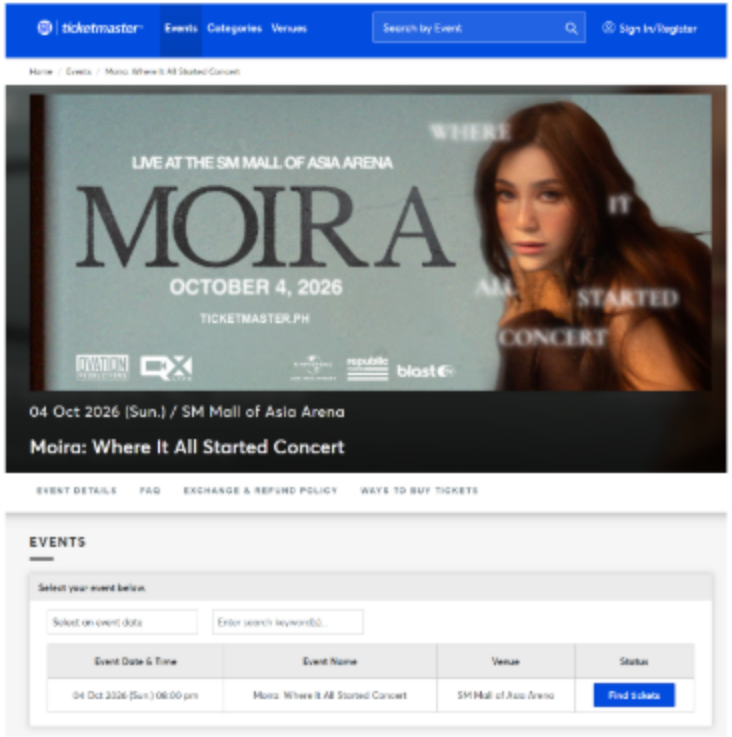

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #5 – Event Details

Business Owner:

"Each event should have **its own page with complete information** so customers know exactly what they're booking."

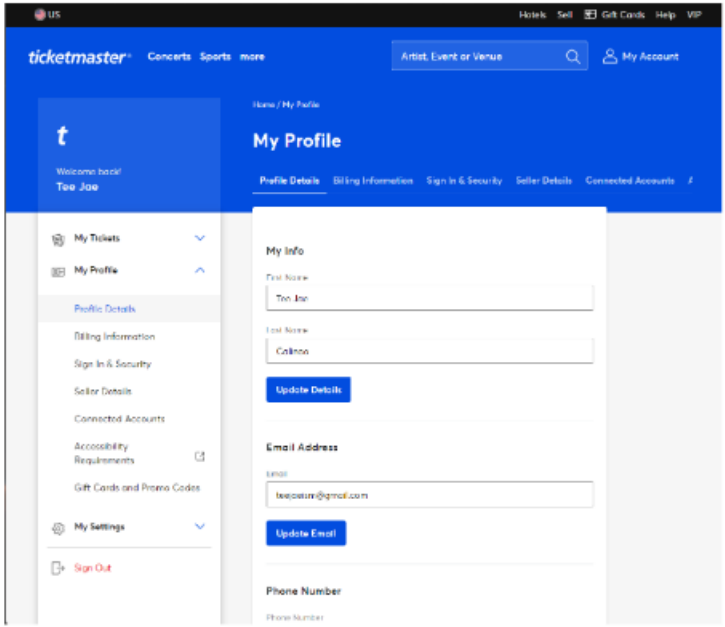

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #6 – Customer Profile

Business Owner:

"Returning customers should be able to **manage their personal information** in one place."

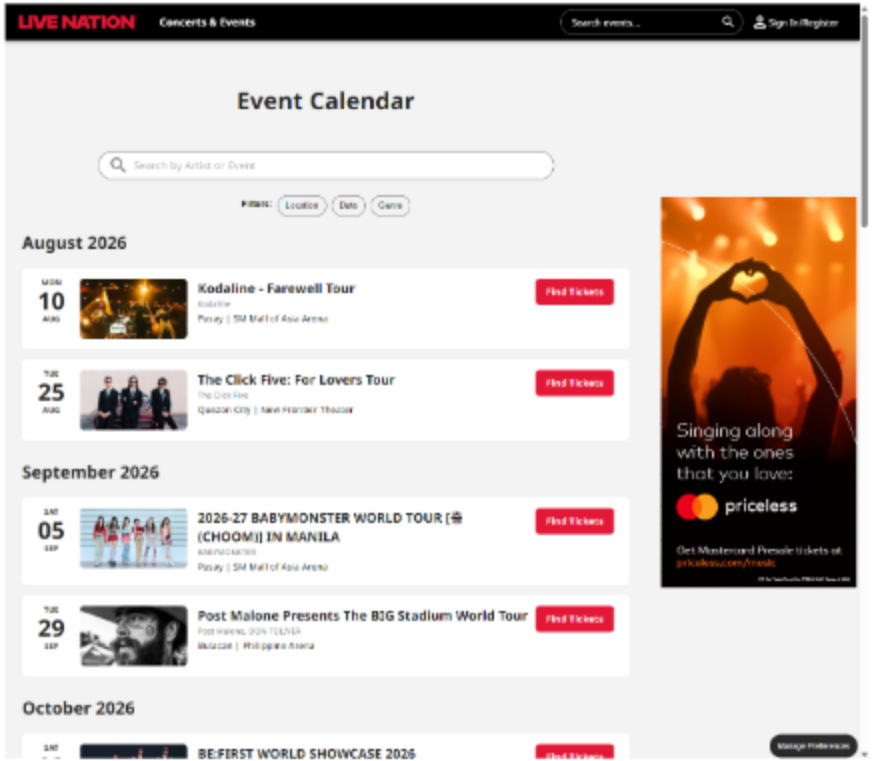

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #3 – Event Calendar

Business Owner:

"Customers should be able to **find events based on what they're looking for** without scrolling through everything."

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

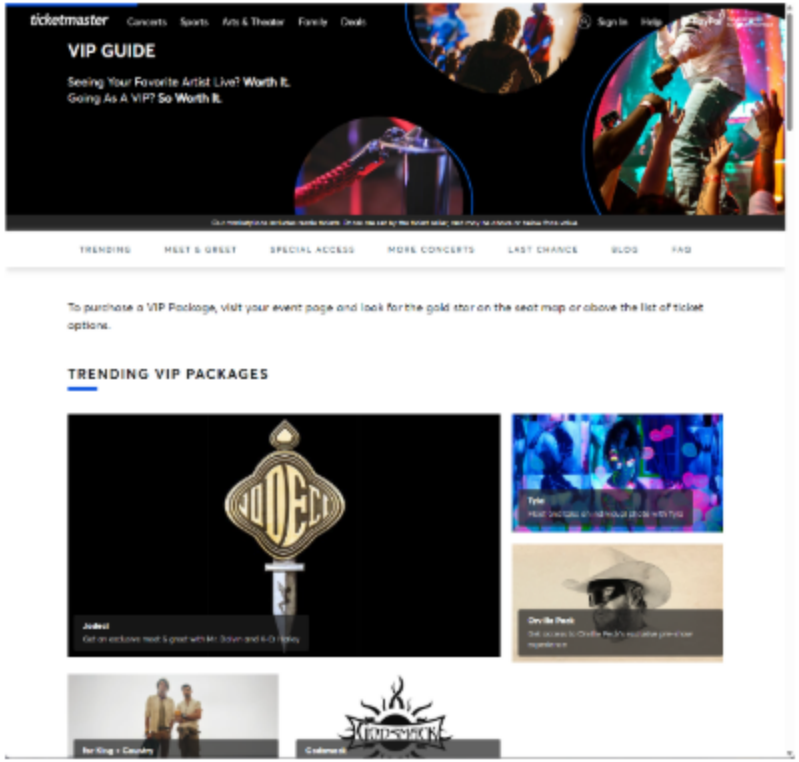

Reference Application #6 – VIP Guide

Business Owner:

"Now this is the part that really inspired my business.

I definitely want a dedicated page for our VIP experiences.

I'm not sure exactly how it should work yet, and that's something I'd like your team to help me figure out."

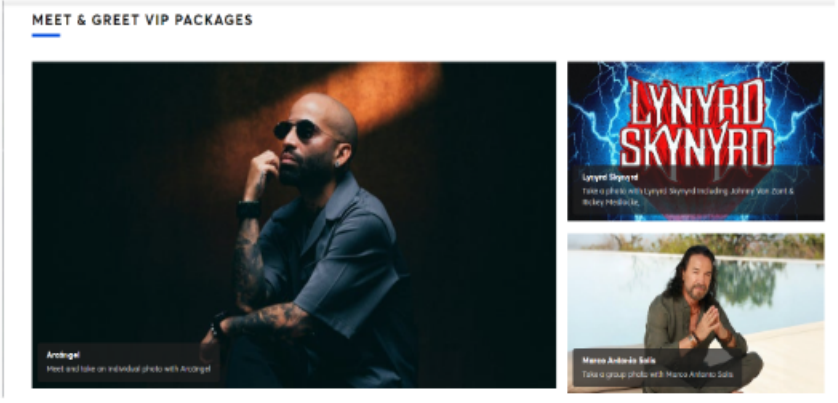

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #7 – Meet & Greet VIP Packages

Business Owner:

"I like how they **present these exclusive experiences.**

I don't want to copy this directly, but I'd like our platform to offer something that customers would find even more exciting."

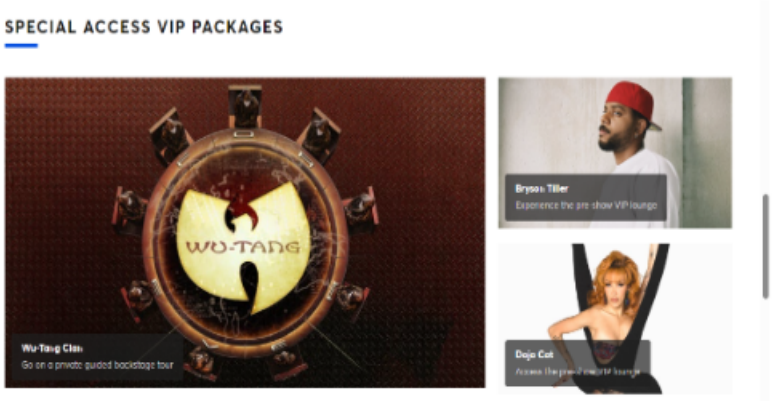

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Reference Application #8 – Special Access VIP Packages

Business Owner:

"This gave me a few ideas as well. I think there are many ways we can make VIP experiences feel more valuable.

I'll leave it to your team to come up with creative ideas."

Side Project Requirements

MCP Side Project 1 - Task Specification

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

ZUITT

Side Project Requirements

- Create a **Technical Specification Document**
  - Add the features and technical specifications
- Create **Trello Task Board for an Event Booking System**
  - Add the task cards based on the specifications

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Side Project Requirements

- Create an **ERD for the Database model**
  - Add an Entity-Relationship Diagram to illustrate the models
- Create **a Figma mockup of the prototype**
  - Based on your groups' specifications, create a figma mockup of the application.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Side Project Requirements

- **Checklist**
  - Technical Specifications Document (TSD)
  - Linked inside the TSD
    - Trello Task List
    - ERD
    - Wireframes
      - for both mobile and desktop for at least 5 pages
    - Typography guide using Figma and Stitch

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

Technical Specification Document

MCP Side Project 1 - Task Specification

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

ZUITT

TSD Requirements

- **Requirements:**
  - **Collaborate and Write a technical specifications document** of a given **Visual Mockup.**
  - The technical specifications should cover **both Frontend and Backend requirements.**
    - This means the features covered should be for **both Frontend and Backend requirements of the application.**

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- **The Document should cover the following content:**
  - **Title Section**
    - Project name, version, date, and authors.
  - **Table of Contents**
    - Organized list of document sections with page numbers.
  - **Features**
    - Key features and functionalities of the application.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- **The Document should cover the following content:**
  - **Functional Requirements**
    - Detailed descriptions of each function the application must perform.
  - **Non-Functional Requirements**
    - Performance, security, usability, and other quality attributes.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- **The Document should cover the following content:**
  - **Visual Mockup (Figma Mockup)**
    - Add your **Figma Mockup** as a visualization of your project/application.
    - Add as link in the document.
  - **Data Requirements**
    - Data models, database schemas, and data storage details **and ERD**
    - Add as image or link in the document.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- **The Document should cover the following content:**
  - **External Interface Requirements**
    - Descriptions of user interfaces, APIs, and interactions with other systems.
  - **Glossary**
    - Definitions of terms and acronyms used in the document.
  - **Appendices**
    - Additional supporting information and revision history

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

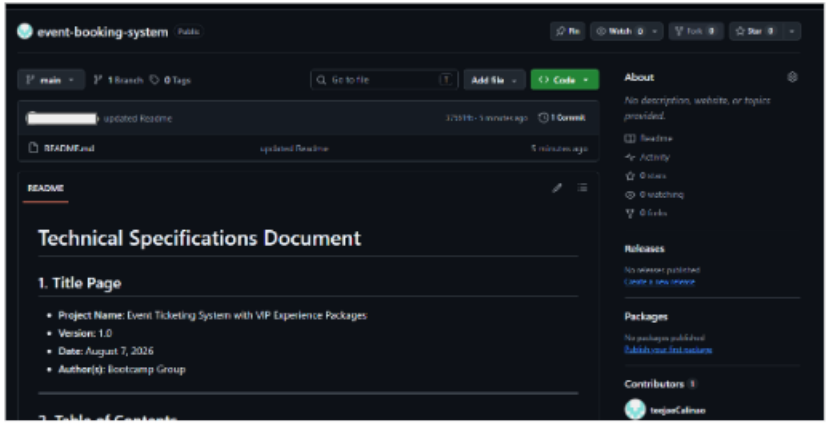

- The Technical Document can be as a **markdown file in a repository.**
- Create a new public Github repo called **event-booking-system**.
  - **Use Git Merging** to update the Markdown
  - **Assigned Group Leader** should add their members in the repo.
  - **Assigned Group Leader** should review update before merge.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

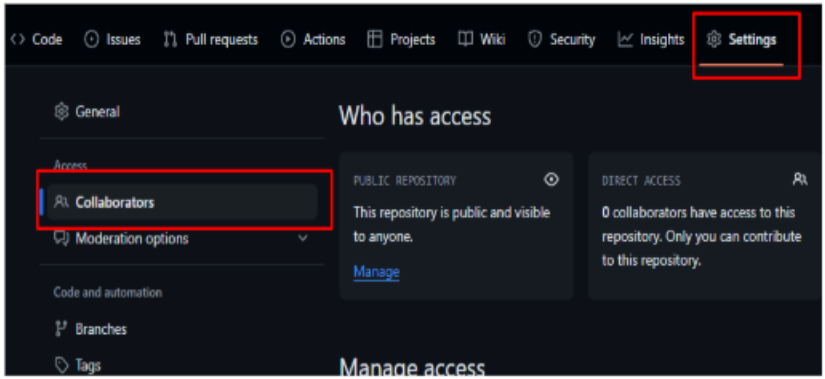

- **Create a public repository in Github** which includes your group mates for a public source accessible for future employers

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

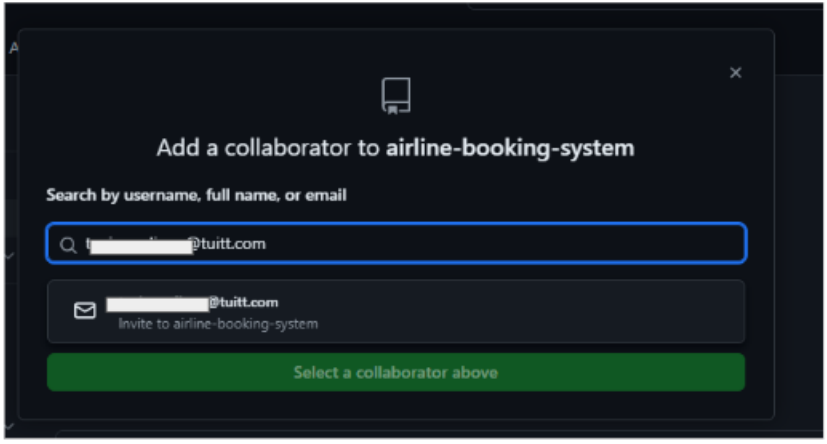

- **Go to Settings > Collaborators** to add group members to the public repo.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

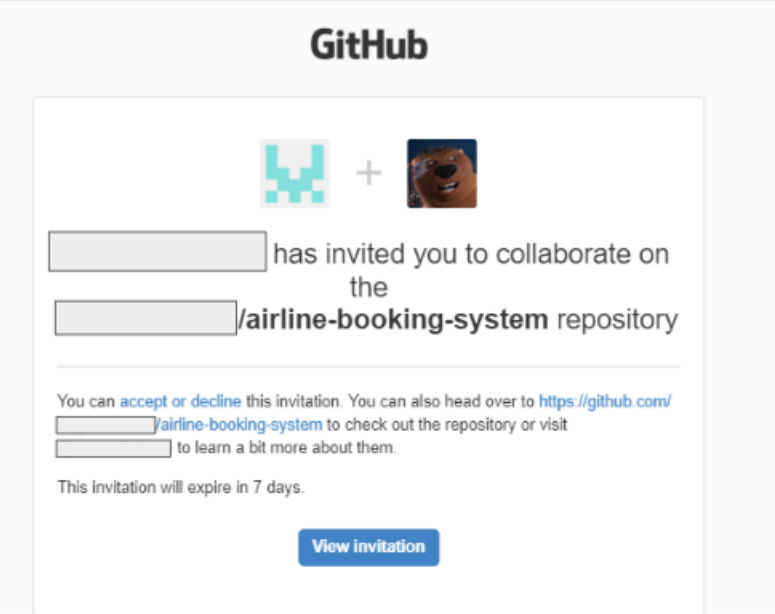

- **Add Group member emails** to invite them.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

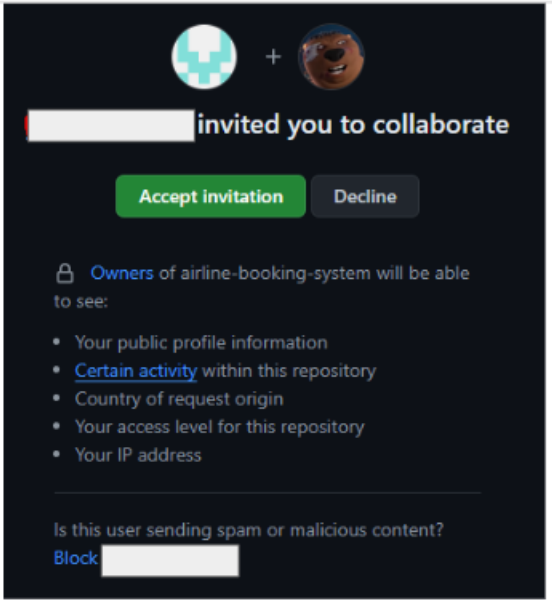

- For added members, **an email should be sent which you can accept and redirect you to your GitHub page.**

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

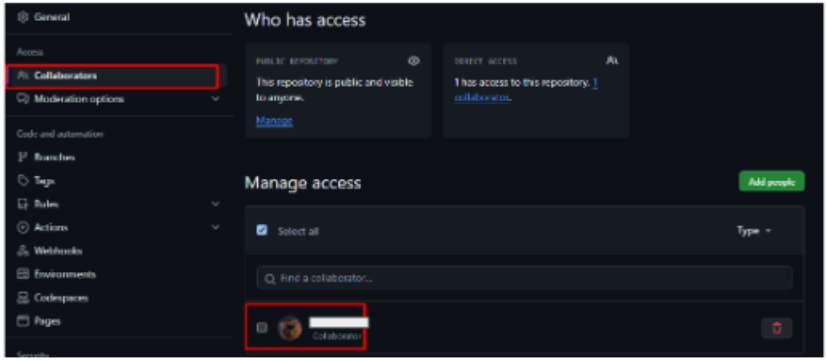

- For added members, **an email should be sent which you can accept and redirect you to your GitHub page.**

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- You can then **check the collaborators** as they are added.

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

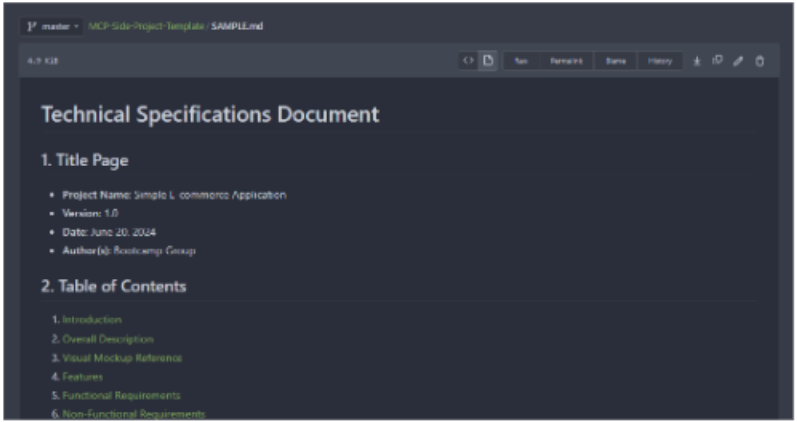

- You can clone or copy the content of the following repo from your batch's organization.
    - This repo contains a template of a **Markdown File for our Technical Specification Document.**
        - **Link**

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- You can clone or copy the content of the following repo from your batch's organization.
    - A sample is also available in the repo. However, make sure to delete it in **your own group repo.**

© 2017-2021 Zuitt Learning Institute Incorporated and its affiliates. All Rights Reserved. Confidential

TSD Requirements

- You can clone or copy the content of the following repo from your batch's organization.
  - You can use the following link for a Guide on Markdown Syntax:
    - https://www.markdownguide.org/basic-syntax
    - Markdown Files allow you to not only **add text but also images, links and lists.**
